## Abstrak

Laporan Praktek Keinsinyuran ini membahas proses pembangunan Set Welcoming Dinner and Cultural Performing Art G20 Indonesia 2022. Penelitian ini di peroleh dengan observasi langsung di lapangan sebagai desainer serta sebagai pengawas lapangan, yang di lakukan selama 13 bulan pengembangan desain hingga pembongkaran set, serta melakukan beberapa kali survei serta simulasi untuk mencari hasil terbaik. Hasil penelitian ini menyarankan untuk desainer dalam pengembangan desain harus menggunakan teori pendukung, mengetahui dan mengembangkan pengetahuan teknis serta diskusi mencari solusi dengan pihak lain yang terlibat.

.....This Engineering Practice Report discusses the process of build the Welcoming Dinner and Cultural Performing Art G20 indonesia 2022 stage. This research was obtained by direct observation in the field as a designer and as a field supervisor, which was carried out for 13 months from developing the design to dismantling the set, as well as carrying out several surveys and simulations to find the best results. The results of this study suggest that designers in design development must use supporting theory, know and develop technical knowledge and discuss finding solutions with other parties involved.
