Abstrak

Salah satu kegiatan pembelajaran yang dilakukan di Program Studi Profesi Apoteker (PSPA) Fakultas Farmasi Universitas Indonesia adalah Praktik Kerja Profesi Apoteker (PKPA) bagi mahasiswa yang sedang menempuh pendidikan PSPA. Pelaksanaan praktik kerja ini bertujuan untuk mempersiapkan mahasiswa calon Apoteker untuk mampu menjalankan praktik kefarmasian secara profesional, legal, dan etik di Rumah Sakit, Apotek, Puskesmas, Industri Farmasi, dan sektor Pedagang Besar Farmasi. Melalui keterlibatan pada berbagai bidang kefarmasian, memberikan gambaran nyata mengenai permasalahan yang dihadapi dalam praktik kefarmasian beserta penyelesaiannya. Praktik kerja profesi dilakukan di PT Kimia Farma Trading and Distribution, Puskesmas Kecamatan Jatinegara, Rumah Sakit Anak dan Bunda Harapan Kita, Apotek Roxy Rawakalong, dan PT Finusolprima Farma Internasional.

.....One of the learning activities carried out at the Pharmacist Professional Study Program (PSPA) of the Faculty of Pharmacy, University of Indonesia is the Pharmacist Professional Work Practice (PKPA) for students who are studying PSPA. The implementation of this work practice aims to prepare prospective pharmacist students to be able to practice pharmacy professionally, legally and ethically in hospitals, pharmacies, health centers, the pharmaceutical industry, and the pharmaceutical wholesaler sector. Through involvement in various pharmaceutical fields, it provides a real picture of the problems encountered in pharmaceutical practice and their solutions. Professional work practices are carried out at PT Kimia Farma Trading and Distribution, Jatinegara District Health Center, Children's and Mother Harapan Kita Hospital, Roxy Rawakalong Pharmacy, and PT Finusolprima Farma Internasional.
