Abstrak

Pada CDOB diatur mengenai ketentuan operasional dalam kegiatan distribusi obat. Kegiatan operasional tersebut termasuk ke dalam bagian logistik. Tujuan laporan tugas khusus ini adalah untuk mempelajari serta menganalisis kesesuaian pelaksanaan alur logistik di Kimia Farma Trading and Distribution Cabang Bogor dengan persyaratan CDOB. Metode yang digunakan dalam pengerjaan laporan ini yaitu studi literatur dari berbagai sumber seperti CDOB serta wawancara langsung dengan narasumber Apoteker Penanggung Jawab dan karyawan lain yang bekerja pada KFTD Cabang Bogor. Proses distribusi obat bagian logistik yang dilakukan oleh Kimia Farma Trading and Distribution Cabang Bogor secara umum telah memenuhi persyaratan CDOB, walaupun masih belum sempurna terutama pada bagian penyimpanan karena adanya kendala kapasitas ruangan yang kurang.

.....The GDP regulates operational provisions in drug distribution activities. These operational activities are included in the logistics section. The purpose of this report is to study and analyze the suitability of the implementation of the logistics flow at Kimia Farma Trading and Distribution Bogor Branch with the GDP requirements. The method used in preparing this report was a literature study from various sources such as GDP and direct interviews with the responsible pharmacist and other employees working at the KFTD Bogor Branch. The drug distribution process in the logistics section carried out by the Kimia Farma Trading and Distribution Bogor Branch in general has met the GDP requirements, although it is still not perfect, especially in the storage section due to insufficient space capacity constraints.
