Abstrak

Praktik Kerja Profesi Apoteker di Rumah Sakit Universitas Indonesia (RS UI) bertujuan agar mahasiswa memahami pelayanan kefarmasian dan peran apoteker di fasilitas pelayanan kesehatan yaitu rumah sakit. Topik tugas khusus yang diangkat pada praktik kerja ini adalah perancangan standar prosedur operasional penanganan obat sitostatika di depo farmasi produksi yang bertujuan untuk menghasilkan suatu standar operasional prosedur penanganan sediaan sitostatika yang dapat digunakan sebagai pedoman oleh apoteker dan tenaga teknis kefarmasian di depo farmasi produksi RS UI dalam melakukan pelayanan permintaan obat sitostatika.

.....The purpose of the pharmacy professional internship at the University of Indonesia Hospital (RS UI) is to enable students to understand pharmaceutical services and the role of pharmacists in healthcare facilities, specifically in hospitals. The specific topic of this internship is the designing of standard operational procedures for handling cytostatic drugs in the pharmaceutical production department. This aims to create a standard operational procedure for the handling of cytostatic preparations that can be used as a guideline by pharmacists and pharmaceutical technical staff in the pharmaceutical production department of RS UI when providing cytostatic drug requests.
