

Digitalisasi Visualisasi Data dengan Dashboard Google Data Studio di PT Finusolprima Farma Internasional = Digitalization of Data Visualization with Google Data Studio Dashboard at PT Finusolprima Farma Internasional

Kelly Nagaruda, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=9999920533563&lokasi=lokal>

Abstrak

Industri farmasi memiliki berbagai macam data seperti corrective and preventive action (CAPA), continuous improvement (CONIM), dan energi yang dihasilkan dalam jumlah besar dari setiap departemen. Data yang diperoleh akan diproses dan dibutuhkan oleh departemen terkait untuk mengambil keputusan serta mendapatkan informasi misalnya melihat aktual dan target yang harus tercapai. Penulisan tugas khusus ini dilakukan untuk mempermudah pengambilan keputusan oleh user melalui visualisasi data menggunakan dashboard google data studio di PT Finusolprima Farma Internasional. Penulisan tugas khusus praktek kerja dilakukan dengan membuat dashboard google data studio di departemen Manufacturing System and Technology Development (MSTD) PT Finusolprima Farma Internasional. Pada pengerjaannya, sumber data akan diambil melalui spreadsheet dan ditampilkan ke dalam bentuk grafik garis, batang, serta lingkaran yang disesuaikan dengan kebutuhan agar informasi dapat disampaikan dengan jelas secara visual.

.....The pharmaceutical industry has a variety of data such as Corrective and Preventive Action (CAPA), Continuous Improvement (CONIM), and the energy produced in large quantities of each department. The data obtained will be processed and needed by the relevant departments to make decisions and get information such as seeing the actual and targets that must be achieved. Writing this special task is carried out to facilitate decision making by the user through data visualization using the Google Data Studio Dashboard at PT Finusolprima Farma International. Writing special work practices is done by creating a Google Data Studio dashboard at the Department of Manufacturing System and Technology Development (MSTD) of PT Finusolprima Farma Internasional. In the process, the data source will be taken from spreadsheet and displayed in the form of line graphs, rods, and circles that are tailored to the needs so that information can be conveyed clearly visually.
