Abstrak

Artikel ini mengkaji pengaruh penanaman modal asing langsung (FDI) terhadap upah di manufaktur Indonesia. Dengan menggunakan analisis ekonometrika data panel di industri manufaktur besar dan sedang antara tahun 2006 dan 2015 menemukan bahwa kepemilikan asing sepanjang periode dan pengambilalihan asing menghasilkan upah yang lebih tinggi dibandingkan dengan pabrik milik domestik baik perusahaan itu bersifat eksportir dan non-eksportir maupun bersifat padat modal dan padat karya.

.....This article examines the effect of foreign direct investment (FDI) on wages in Indonesian manufactures. Using econometric analysis of panel data in large and medium manufacturing industries between 2006 and 2015 found that foreign ownership over the period and foreign takeovers resulted in higher wages compared to domestically owned factories whether the firms were exporters and non-exporters as well as capital-intensive and labor intensive.
