## Abstrak

Dengan perkembangan film dan TV series LGBT yang telah di buat, salah satu tema klise yang kerap di gunakan adalah tema klise Bury Your Gays (BYG) yang muncul di salah satu TV series terkenal yaitu Killing Eve yang di rilis tahun 2018. Akan tetapi, TV series tersebut memiliki kontroversi bukan hanya karena penggunaan tema klise negatif, namun juga dengan adanya penggunaan LGBT sebagai umpan taktik untuk menarik penonton yang terlihat jelas bagaimana TV series tersebut menyimpang dari bukunya dengan judul yang sama yang di tulis oleh Luke Jennings. Menggunakan analisis teks dengan teori tema klise Bury Your Gays milik Hulan (2017) dengan membandingkan TV series dengan buku, penelitian ini menganalisa bahwa TV series bertanggung jawab dalam merubah plot, dan karakterisasi tokoh LGBT yang menyebabkan kurangnya representasi LGBT yang sudah terbatas.

.....With the rising number of LGBTQ films and TV series made, one common trope that is often used by films and TV series is the Bury Your Gays (BYG) trope which appeared in one of the famous lesbian TV series that was released in 2018, Killing Eve. However, the show is controversial not only because of its negative use of the Bury Your Gays trope but also as a part of a queerbaiting tactic seen from how the TV series deviated from the source which is the book with the same title written by Luke Jennings and merely used it to gain audience engagement. Using textual analysis utilizing Hulan's (2017) Bury Your Gays trope theories and comparing the TV series and the book, the paper finds that the TV series is responsible for changing plots and characterization of the LGBT characters which undermines the already limited LGBT representation in the TV series.
