Abstrak

The original comprehensive guide to energetic healing with a new preface by the author and updated resources. Explores the actual science of etheric energies, replacing the Newtonian worldview with a new model based on Einstein's physics of energy. Vibrational Medicine has gained widespread acceptance by individuals, schools, and healthcare institutions nationwide as the textbook of choice for the study of alternative medicine. Trained in a variety of alternative therapies as well as conventional Western medicine, the author provides an encyclopedic treatment of energetic healing, covering subtle energy fields, acupuncture, Bach flower remedies, homeopathy, radionics, crystal healing, electrotherapy, radiology, chakras, meditation, and psychic healing. He explains current theories about how various energy therapies work and offers readers new insights into the physical and spiritual perspectives of health and disease. Summarizes key points at the end of each chapter to help the serious student absorb and retain the wealth of information presented
