Abstrak

Penggunaan obat yang rasional adalah faktor penting dalam keberhasilan pelayanan kefarmasian. Pengkajian resep obat asma di Apotek Kimia Farma 202 Kejayaan Depok dilakukan untuk menilai kesesuaian resep dengan standar yang berlaku. Penelitian ini bertujuan untuk mengkaji resep obat asma dari segi administrasi, farmasetik, dan klinis serta memahami permasalahan yang muncul dari pengkajian resep tersebut. Pengkajian dilakukan terhadap resep asma yang diterima di Apotek Kimia Farma 202 selama bulan Juli 2023. Data dikumpulkan melalui observasi langsung dan wawancara dengan apoteker. Analisis dilakukan berdasarkan aspek administrasi, farmasetik, dan klinis sesuai Peraturan Menteri Kesehatan No. 73 Tahun 2016. Hasil analisis menunjukkan bahwa sebagian besar resep sudah memenuhi standar administrasi, namun terdapat beberapa kekurangan dalam aspek farmasetik dan klinis, seperti ketidaktepatan dosis dan bentuk sediaan obat yang tidak tercantum dengan lengkap. Peningkatan kualitas pelayanan resep di Apotek Kimia Farma 202 dapat dicapai melalui peningkatan pengawasan dan edukasi kepada tenaga kesehatan mengenai penulisan resep yang lengkap dan jelas.

.....

Rational drug use is a critical factor in the success of pharmaceutical services. The evaluation of asthma medication prescriptions at Apotek Kimia Farma 202 Kejayaan Depok was conducted to assess the conformity of prescriptions with applicable standards. This study aims to review asthma drug prescriptions in terms of administration, pharmaceuticals, and clinical aspects, as well as to understand the issues arising from this evaluation. The review was carried out on asthma prescriptions received at Apotek Kimia Farma 202 during July 2023. Data were collected through direct observation and interviews with pharmacists. Analysis was conducted based on administrative, pharmaceutical, and clinical aspects in accordance with Minister of Health Regulation No. 73 of 2016. The results of the analysis indicated that most prescriptions met administrative standards; however, there were some deficiencies in pharmaceutical and clinical aspects, such as inaccurate dosages and incomplete drug formulations. Improving the quality of prescription services at Apotek Kimia Farma 202 can be achieved through enhanced supervision and education for healthcare professionals regarding the writing of complete and clear prescriptions.
