Abstrak

Perlindungan anak merupakan program yang telah dijalankan oleh beragam organisasi baik pemerintahan maupun swasta dan menjadi salah satu fokus utama di seluruh belahan dunia. Di Indonesia, Lembaga pemerintah dan LSM bersama-sama menjadi penggerak berjalannya program perlindungan anak Indonesia. Salah satu LSM yang mempunyai program tersebut adalah Save the Children dengan program yang bernama Coaching for Life. Untuk menilai apakah suatu program tepat sasaran seperti yang diharapkan, maka dibutuhkan evaluasi program. Penelitian ini bertujuan untuk mengevaluasi program Coaching for Life, yang ditinjau dari dimensi efektivitas, efisiensi, dampak dan keberlanjutan. Metode penelitian yang digunakan adalah metode kualitatif, dengan alat evaluasi menggunakan main categorical analysis dan SWOT disertai analisis konsep partisipasi dan pembangunan kapasitas. Hasil dari penelitian ini menemukan bahwa program Coaching for life, telah berjalan efektif dan efisien, serta memberi dampak positif serta berkelanjutan untuk jangka panjang. Materi yang digunakan dalam kegiatan program cukup aplikatif sehingga dapat mengasah kemampuan penerima program dan diperaktikan secara langsung. Praktik langsung membuat manfaat yang diterima melekat dengan penerima program dalam jangka waktu yang panjang. Sehingga, hal tersebut mendorong terbentuknya kebertahanan pada anak dan terciptanya lingkungan yang positif bagi anak.

.....Child protection programme has been obtained by various organization, both government and private sector, and the child protection programme has been the main focus all over the world. In Indonesia, government organization and NGOs both take an important role on the running of Indonesian child protection programme. One of the NGO that have this programme is Save The Children with the programme named Coaching for Life. To asses the programme accordance with the goals and target, programme evaluation needed to be done. This research is meant to evaluate Coaching for Life programme which will be reviewed with a few dimention of evaluation such as effectivity, efficiency, impact, and sustainability. This research used qualitative method, with main categorical analysis and SWOT analysis as tools of evaluation, there is also an analysis on participation and capacity building concept. The result of this research found that the implementation of Coaching for Life programme has been effective and efficient, along with giving positive impact and sustainability for a long period of time. The subjects that are used in program activity are quite applicable in the real life. Therefore, the subjects that are given can sharpen the skills of the program participant where they can directly practice their skill in their real life. Direct practice can make the result of this program stick with them for a long period of time with the result that this practice will encourage the shaping of children resilience and creating a positive environment for children.
