Abstrak

Penelitian ini bertujuan untuk menganalisis implementasi program Indonesian International Student Mobility Awards (IISMA) di Universitas Indonesia Tahun 2024. Program IISMA merupakan salah satu program unggulan Kementerian Pendidikan, Kebudayaan, Riset, dan Teknologi yang memberikan kesempatan kepada mahasiswa untuk memperoleh pengalaman akademik dan budaya di universitas ternama dunia. Penelitian ini menggunakan pendekatan kuantitatif dengan metode pengumpulan data mixed-method lewat survey, wawancara mendalam, dan studi pustaka. Responden penelitian mencakup mahasiswa peserta IISMA, dosen pendamping, pihak Centre of Independent Learning (CIL) UI, serta pihak fakultas. Hasil penelitian menunjukkan bahwa pelaksanaan program IISMA di Universitas Indonesia telah berjalan dengan baik, dengan kualitas sumber daya manusia yang memadai dan pelaksanaan kegiatan yang sesuai Standar Operasional Prosedur (SOP). Namun, ditemukan beberapa kendala, seperti kurangnya konsistensi dalam penyampaian informasi, tumpang tindih tugas staf pelaksana, dan keterlambatan pencairan dana.

.....This study aims to analyze the implementation of the Indonesian International Student Mobility Awards (IISMA) program at Universitas Indonesia in 2024. IISMA is a flagship program of the Ministry of Education, Culture, Research, and Technology, providing students with opportunities to gain academic and cultural experiences at world-renowned universities. This research adopts a quantitative approach using a mixed-method data collection strategy, including survey, in-depth interviews, and literature reviews. The respondents consist of IISMA participants, academic advisors, staff from the Centre of Independent Learning (CIL) UI, and faculty representatives. The findings reveal that the implementation of the IISMA program at Universitas Indonesia has been conducted effectively, supported by adequate human resources and adherence to Standard Operating Procedures (SOP). However, challenges such as inconsistencies in information dissemination, overlapping staff responsibilities, and delays in fund disbursement were identified.
