Abstrak

Kapel Santa Ursula berada di Jl. Pos No. 2 yang berada di kompleks Sekolah Santa Ursula merupakan salah satu sekolah Katolik tertua di Jakarta. Kapel Santa Ursula dibangun oleh Antonius Dijkmans, SJ pada tahun 1888 dengan gaya Neo-Gotik. Penelitian ini bertujuan untuk menganalisis dan melakukan perekaman data terkait Kapel Santa Ursula Jakarta seperti gaya arsitektur dan ornamen, membahas fungsi Kapel Santa Ursula serta peran kapel bagi masyarakat Katolik Jakarta. Metode penelitian arkeologi dilakukan menurut Robert J. Sharer dan Wendy Ashmore yaitu implementasi penelitian, pengumpulan data, pengolahan data, analisis data, interpretasi data, dan publikasi. Penelitian membuktikan bahwa Kapel Santa Ursula Jakarta bergaya Neo-Gotik dan tidak mengubah bentuk asli bangunan, memiliki nilai sejarah penyebaran Agama Katolik di Indonesia yang tinggi, dan membuktikan pentingnya keberadaan kapel bagi umat Katolik.

.....Santa Ursula Chapel is located at Jl. Pos No. 2, situated within the complex of Santa Ursula School, one of the oldest Catholic schools in Jakarta. Santa Ursula Chapel was built by Antonius Dijkmans, SJ, in 1888 in the Neo-Gothic style. This research aims to analyze and record data related to Santa Ursula Chapel in Jakarta, such as its architectural style and ornamentation, discuss the function of Santa Ursula Chapel, and examine chapels role for the Catholic community in Jakarta. The archaeological research method was conducted according to Robert J. Sharer and Wendy Ashmore, which involves implementation of research, data collection, data processing, data analysis, data interpretation, and publication. The research proves that Santa Ursula Chapel in Jakarta has a Neo-Gothic style and has not undergone any significant alterations to its original form. It possesses a high historical value in terms of the spread of the Catholic religion in Indonesia and demonstrates the importance of chapels existence for the Catholic community.
