Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=9999920566750&lokasi=lokal>

Abstrak

Penelitian ini membahas strategi pembelajaran bahasa Arab di SMA Sekolah Indonesia Cairo (SIC), yang menghadapi tantangan beragamnya latar belakang siswa. Siswa SMA, umumnya anak staf KBRI, memiliki keterbatasan dalam keterampilan berbicara dan menulis dibandingkan siswa SD dan SMP yang lebih terbiasa dengan lingkungan berbahasa Arab. Pengajaran dilakukan oleh pengajar penutur asli Mesir dengan buku ajar terbitan Indonesia. Fokus penelitian ini pada kelas XI bertujuan untuk menganalisis strategi pembelajaran yang dapat membantu siswa mengatasi kesulitan bahasa Arab mereka. Hasil penelitian diharapkan menjadi referensi pengembangan strategi pembelajaran bahasa Arab di sekolah serupa di luar negeri.

..... This study examines Arabic language learning strategies at the Indonesian School in Cairo (SIC), addressing the challenges posed by the diverse backgrounds of high school students. The students, primarily children of Indonesian Embassy staff, generally exhibit limitations in speaking and writing skills compared to elementary and middle school students, who are more accustomed to an Arabic-speaking environment. The teaching is conducted by native Egyptian instructors using textbooks published in Indonesia. Focusing on 11th-grade students, this study aims to analyze instructional strategies that can help students overcome their difficulties in learning Arabic. The findings are expected to serve as a reference for developing Arabic teaching strategies in similar schools abroad.
