

Contemporary Management in Critical Care: Critical Care Toxicology

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=9999920579368&lokasi=lokal>

Abstrak

Part of a series which aims to provide the practitioner with concise surveys of major topics in critical care medicine. Topics covered include toxicokinetics; the role of haemodialysis and haemoperfusion in the treatment of intoxications; and the management of intensive care patients.
