

Jakarta, 8 Juni 2009

Kepada Yth,

Dokter RSUD Pasar Rebo

Jl. TB. Simatupang

Dengan Hormat,

Saya Eni Nur Zuliani Mahasiswi tingkat akhir Peminatan Manajemen Rumah Sakit Fakultas Kesehatan Masyarakat Universitas Indonesia. Sehubungan dengan penelitian saya yang berjudul **“Analisis Pengendalian Persediaan Obat Antibiotik Dengan Menggunakan Analisis ABC Indeks Kritis di RSUD Pasar Rebo Tahun 2008”**, maka saya memohon bantuannya kepada Dokter RSUD Pasar Rebo untuk mengisi kuesioner daftar obat antibiotik regular yang telah disediakan berdasarkan nilai kritis tidaknya persediaan obat tersebut dengan memberikan tanda *check list* (✓) pada kolom yang sesuai.

Adapun keterangan dari kolom tersebut adalah:

1. X : Bila obat tidak dapat diganti dan harus selalu ada dalam proses pelayanan
2. Y : Bila obat dapat diganti walaupun tidak memuaskan seperti yang asli dan kekosongan kurang dari 2 hari dapat ditolerir
3. Z : Bila obat dapat diganti dan kekosongan lebih dari 48 jam masih dapat di toleransi.
4. O : Bila obat tidak dapat diklasifikasikan dalam kelompok X, Y, dan Z

Atas bantuan dan kerjasama Dokter saya ucapkan terima kasih.

Hormat Saya,

Peneliti

Eni Nur Zuliani
