

ABSTRAK

Hariato. Layanan Buku Elektronik: Survei di Perpustakaan Pusat Universitas Indonesia (Di bawah bimbingan Ibu Siti Sumarningsih, S.S., M.Lib). Depok: Program Studi Ilmu Perpustakaan dan Informasi, FIB-UI. 2009.

Skripsi ini mengenai layanan buku elektronik di perpustakaan pusat Universitas Indonesia yang membahas karakteristik pengguna dan pemanfaatan layanan buku elektronik pada tahun 2009. Layanan buku elektronik memberikan keuntungan kepada pengguna antara lain akses jarak jauh tanpa dibatasi waktu dan tempat, meningkatkan minat baca dan melek teknologi informasi, membantu kegiatan belajar dan penelitian, serta kenyamanan menggunakan dan menyimpan banyak judul buku elektronik dalam satu perangkat. Metode penelitian dalam penelitian ini menggunakan pendekatan kuantitatif. Jenis penelitian ini yaitu penelitian survei deskriptif analitik dengan desain *cross sectional study*. Hasil penelitian menyarankan bahwa perpustakaan perlu mengadakan promosi/sosialisasi, pelatihan/pendidikan pemakai tentang layanan buku elektronik dan buku elektronik yang ada di perpustakaan pusat Universitas Indonesia lebih mudah dicari (*user friendly*).

Kata kunci:

Buku Elektronik, Layanan Buku Elektronik, Koleksi Digital

ABSTRACT

Hariato. *Electronic Book Services: Survey at the Library Center, University of Indonesia* (Under the guidance of Mrs. Siti Sumarningsih, SS, M. Lib). Depok: Studies Library and Information Science, FIB-UI. 2009.

The focus of this study is about electronic books service in the library center, University of Indonesia, which discusses the characteristics of the users and electronic books services in 2009. Electronic books service provide benefits to the user include remote access without limited of the time and place, to increase interest in reading and information technology literacy, to help research and learning activities, and convenience of using or saving multiple electronic books title in one device. Research method in this research using a quantitative approach. This type of research that is descriptive analytical research survey with a cross-sectional study design. Research results suggest that libraries need to conduct promotion/dissemination, training /education about the electronic book and electronic books in the library center, University of Indonesia more easily searchable (user friendly).
