Judul Tesis : Perlindungan Hak dan Pelayanan Korban di Pusat Krisis Terpadu Rumah Sakit Cipto Mangunkusumo Sebagai bentuk pelaksanaan Dalam menangani Perempuan Korban KDRT

Tesis ini membahas bagaimana pelaksanaan perlindungan dan pelayanan terhadap perempuan korban kekerasan dalam rumah tangga pada PKT RSCM. Undang-undang Nomor 23 Tahun 2004 tentang Penghapusan Kekerasan Dalam Rumah Tangga yang disahkan berlakunya tanggal 22 September 2004, mengamanatkan bahwa korban KDRT berhak mendapatkan perlindungan dan pelayanan kesehatan. Namun belum banyak perempuan yang mengetahui hal ini, karena Undang-undang PKDRT masih baru. Pelaksanaan perlindungan dan pelayanan terhadap korban KDRT dijelaskan peneliti berdasarkan pemikiran Joanna Shapland, tentang kebutuhan korban yang perlu diperhatikan antara lain: (1) perhatian segera (keselamatan dan perlindungan), (2) terus menerus dukungan dan informasi, (3) representasi atau perwakilan formal di pengadilan, (4) restitusi dan kompensasi, dan (5) peran penting awal polisi. Penelitian ini adalah penelitian kualitatif dengan melakukan pengamatan terlibat untuk dapat memperoleh pengalaman langsung dan pemahaman tentang kesulitan mengenai pelaksanaan perlindungan dan pelayanan korban di PKT RSCM. Hasil penelitian diketahui bahwa belum seluruhnya kebutuhan korban dapat dilaksanakan. Hasil penelitian menyarankan pemerintah dalam hal ini Kementerian Pemberdayaan Perempuan lebih giat melakukan penyuluhan dan sosialisasi Undang-undang PKDRT, pemerintah harus memperhatikan atau menyediakan anggaran untuk beroperasinya PKT RSCM agar lebih berdaya guna, Undang-undang PKDRT harus lebih dulu dipahami implementasinya oleh para aparat hukum.

Thesis Title : Protection of Victims Rights and Services at the Hospital Crisis Centre Cipto Mangunkusumo As the implementation of the WomenVictims of Domestic Violence handling

This thesis explores how the implementation of protection and service to women victims of domestic violence at the CCP RSCM. Law Number 23 Year 2004 on the Elimination of Domestic Violence which was ratified into force on 22 September 2004, mandated that victims of domestic violence are entitled to protection and health services. But not many women know this, because the Domestic Violence Act was still new. Implementation of protection and service to victims of domestic violence based on the ideas explained researcher Joanna Shapland, about the needs of victims who need to be considered include: (1) immediate attention (the safety and protection), (2) ongoing support and information, (3) formal representation or representation in court, (4) restitution and compensation, and (5) an important role early police. This research is qualitative research by conducting observations involved to be able to obtain direct experience and understanding of the difficulties regarding the implementation of protection and victim services at the CCP RSCM. The results showed that not all the needs of victims can be implemented. The results suggested that the government in this case the Ministry of Women more active in conducting education and socialization of Domestic Violence Act, the government must consider or provide a budget for the operation of the CCP to make it more efficient RSCM, Domestic Violence Act must first understand its implementation by law enforcement agencies.
