Title : Analysis Economic of Law in the Implementation of Legal Certainty in Operation and Maintenance Agreement (O&M) for Power Plant at PT. Perusahaan Listrik negara (Persero) (PLN)

This thesis discusses the principle of legal certainty in the Operation and Maintenance Agreement (O&M) that occurs in the PT. Perusahaan Listrik Negara (Persero). Analysis economic of law is applied as a damage measure to the breach of contract which potentially creating disputes that make inefficient implementation of the O&M. This research uses descriptive analytical method. The results suggest the appropriate damage measures to the provision of O&M in reducing the occurrence of disputes, and provide legal certainty to the parties regarding the remedies due to the breach, so the O&M to apply efficient and shape the behavior of the parties in contract for act towards increasing the contract value in the implementation of such O&M.

Key words: analysis economic of contract law, operation and maintenane agreement
