

Macroeconomics in emerging markets / Peter J. Montiel

Montiel, Peter J.

Deskripsi Dokumen: <http://lib.ui.ac.id/opac/themes/libri2/detail.jsp?id=20356427&lokasi=lokal>

Abstrak

This is a relatively non-technical in macroeconomics designed specifically for emerging economies. Use to understand economic events in their countries, and provides separate analysis of the key macroeconomic problem areas that these economies have confronted over the last two decades: fiscal deficits, financial sector reform, and exchange rate policies. That it is designed explicitly for emerging economies.

Thus, the analytical (the model) focuses heavily on the macroeconomic implications of financial integration, while the more policy-oriented portions focus on the dimensions of policy failure that critical for developing countries over the past two decades.

The development in that it contains up-to-date macroeconomics.
