### Abstrak

This book is written by a man, for men, as a practical and tactical guide to handling divorce. It's a no-holds-barred discussion of defenses against being worked over and hung out to dry during a divorce. There's a real need for this book because many men are in need of "consciousness raising." Many men act as if they believe the feminist propaganda that "it's a man's world," and don't realize how badly the legal deck is stacked against them, in both marriage and divorce.

The women's liberation movement has caused restructuring of the laws, to gain "equal rights" for women. At the same time, it has carefully avoided demanding equal responsibility from women. The law often requires the husband to support his ex- wife.

A practical manual for a married man who may be facing divorce.
