Abstrak

Culture and Health offers an overview of different areas of culture and health, building on foundations of medical anthropology and health behavior theory. It shows how to address the challenges of crosscultural medicine through interdisciplinary culturalecological models and personal and institutional developmental approaches to crosscultural adaptation and competency. The book addresses the perspectives of clinically applied anthropology, transcultural psychiatry and the medical ecology, critical medical anthropology and symbolic paradigms as frameworks for enhanced comprehension of health and the medical encounter. Includes cultural case studies, applied vignettes, and selfassessments.
