

Free trade agreements and implications on public health - an analysis of FTA of selected ASEAN member states

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=121103&lokasi=lokal>

Abstrak

Much has been discussed on the issue of the implications of the free trade agreements (FTA) and public health, especially on the relationship of intellectual property and public health and the public health provisions under the Doha Declaration, which specifically relates to the access to medicine....
