[ABSTRAK

Skripsi ini membahas partisipasi masyarakat terhadap posyandu dalam upaya pelayanan kesehatan balita dengan melakukan studi kasus pada Posyandu Nusa Indah II RW 11 Kelurahan Meruyung Kecamatan Limo, Depok. Tujuannya untuk memberikan gambaran bagaimana bentuk partisipasi masyarakat dalam pelayanan kesehatan balita serta faktor-faktor apa yang mempengaruhinya. Penelitian ini adalah penelitian kualitatif dengan desain deskriptif. Hasil penelitian menunjukkan bahwa ada beberapa bentuk partisipasi yang dilakukan oleh masyarakat, seperti partisipasi tenaga, uang dan ikut dalam pelaksanaan program. Hal tersebut dipengaruhi oleh beberapa faktor internal dan eksternal, seperti pengetahuan, lama tinggal, usia, pekerjaan, kebiasaan, kebutuhan, keluarga, lokasi posyandu, serta manfaat yang telah dirasakan dari posyandu.
