[ABSTRAK

Tahap tanggap darurat bencana banjir di DKI Jakarta awal tahun 2013 lalu, menghambat proses pembangunan sosial dan menimbulkan berbagai permasalahan kesejahteraan sosial. Maka untuk itu melalui pendekatan kualitatif, penelitian tesis ini bermaksud mendeskripsikan apakah relasi triple helix terbangun dalam tahap tanggap darurat bencana banjir awal tahun 2013 lalu. Berdasarkan hasil temuan di lapangan, ternyata tidak terbangun relasi triple helix. Padahal relasi triple helix saat tahap tanggap darurat bencana banjir awal tahun 2013 lalu dapat terbangun karena adanya beberapa faktor pendukung seperti: (a) semangat kemanusiaan; (b) lokasi yang berdekatan; (c) kemampuan SDM dalam bidang tanggap darurat; dan (d) kemampuan finansial. Namun memang faktanya relasi triple helix ini tidak dapat terbangun secara sempurna saat tahap tanggap darurat bencana banjir awal tahun 2013 lalu karena ada beberapa faktor penghambat seperti: (a) ketidakpercayaan; (b) prosedur birokrasi yang ketat; dan (c) ego sektoral.

<hr>ABSTRACT

Emergency response Phase of floods disaster in DKI Jakarta on early 2013 , impede the process of social development and creates various social welfare issues. Through a qualitative approach, this thesis is intended to describe the triple helix relations in the emergency floods in early 2013. Based on the findings at the field, it did not wake triple helix relation. Though triple helix relations in current flood emergency response phase in 2013 could be developed due to several contributing factors such as: (a) humanity spirit; (b) adjacent locations; (c) human resource capabilities in emergency response, and (d) the financial capability. But in the fact a triple helix relations can not be developed completely when the emergency phase of floods in early 2013, because there are several inhibiting factors such as: (a) distrust, (b) strict bureaucratic procedures, and (c) sectoral ego., Emergency response Phase of floods disaster in DKI Jakarta on early 2013 , impede the process of social development and creates various social welfare issues.
