Abstrak

[ABSTRAK

Penelitian ini menguji pengaruh antara konsentrasi kepemilikan dan identitas kepemilikan pada perusahaan non-keuangan di Indonesia terhadap kinerja perusahaan dengan mengontrol beberapa faktor perusahaan seperti konsentrasi kepemilikan yang diwakili oleh concentration ratio dan kepemilikan blockholders serta identitas kepemilikan yang diwakili oleh faktor kepemilikan pemerintah, kepemilikan asing, dan kepemilikan keluarga. Hasil penelitian sebelumnya menunjukkan hubungan konsentrasi kepemilikan dan identitas kepemilikan memiliki pengaruh signifikan terhadap kinerja perusahaan. Sementara hasil yang tidak signifikan terjadi pada pengaruh kepemilikan keluarga terhadap kinerja perusahaan. Hal ini menunjukkan bahwa di Indonesia pemegang saham yang terkonsentrasi pada kepemilikan pemerintah dan asing cenderung meningkatkan kinerja perusahaan sekaligus mengendalikan tingkat agency problem pada suatu perusahaan.

ABSTRACT

This study examines for the effect of ownership concentration and ownership identity of non-financial company in Indonesia on firm performance. Also this research is controlling several factors of the firm such as, ownership concentration represented by concentration ratio and blockholders ownership and ownership of identity represented by a factor of government ownership, foreign ownership, and family ownership. The results of previous studies showing the relationship of concentration ownership and identity of ownership has a significant influence on the performance of the company. While the results were not significant happened on the influence of family ownership on firm performance. This suggests that in Indonesia shareholders concentrated in government and foreign ownership tends to improve the performance of the company while controlling the level of agency problems in a company.;This study examines for the effect of ownership concentration and ownership identity of non-financial company in Indonesia on firm performance.
