Abstrak

[ABSTRAK

Penelitian ini dilakukan untuk mengetahui pengaruh dari liquidity creation dan net stable funding difference terhadap struktur permodalan bank konvensional di Indonesia. Variabel independennya adalah bank capital ratio dan variabel control dari bank risk, bank size, bank management efficiency serta local market competition. Analisa yang digunakan menggunakan regresi dengan data panel dengan periode yang digunakan adalah tahun 2004-2014. Hasil pengujian, sesuai dengan penelitian terdahulu bahwa terdapat pengaruh negatif liquidity creation terhadap struktur modal, sedangkan net stable funding difference memiliki pengaruh negatif terhadap struktur modal namun tidak signifikan.
