

A1-algebraic topology over a field

Morel, Fabien, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20418920&lokasi=lokal>

Abstrak

This text deals with A1-homotopy theory over a base field, i.e., with the natural homotopy theory associated to the category of smooth varieties over a field in which the affine line is imposed to be contractible. It is a natural sequel to the foundational paper on A1-homotopy theory written together with V. Voevodsky. New results and applications related to the properties and computations of A1-homotopy sheaves, A1-homology sheaves, and sheaves with generalized transfers, as well as to algebraic vector bundles over affine smooth varieties.
