

Global differential geometry

Bar, Christian, editor

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20420444&lokasi=lokal>

Abstrak

This volume contains a collection of well-written surveys provided by experts in global differential geometry to give an overview over recent developments in Riemannian geometry, geometric analysis and symplectic geometry. The papers were written for researchers with a general interest in geometry who want to get acquainted with the current trends in these central fields of modern mathematics.
