ABSTRACT

Penelitian ini bertujuan untuk mengetahui pengaruh country governance terhadap stabilitas bank syariah. Penelitian ini menggunakan 107 data bank syariah di 19 negara dalam periode 2011-2015. Parameter stabilitas bank syariah menggunakan Z-scores. Dengan menggunakan fixed effect model, ditemukan bahwa control of corruption, political stability, regulatory quality, dan contract enforcement secara signifikan berpengaruh positif terhadap stabilitas bank syariah. Namun demikian, government effectiveness tidak memiliki pengaruh signifikan terhadap stabilitas bank.

ABSTRACT

This research aims to examine the impact of country governance on Islamic bank stability. This research uses 107 Islamic banks in 19 countries in 2011 2015. I use Z scores to measure Islamic bank stability. Using fixed effect model, I find that control of corruption, political stability, regulatory quality, and contract enforcement significantly have positive impact on Islamic bank stability. But, government effectiveness has no significant influence on Islamic bank stability.
