

Judul:

Studi karakteristik agregat kasar ringan hasil daur ulang limbah kantong plastik high density polyethylene dan pengaruhnya terhadap kuat tekan dan tarik belah serta modulus elastisitas beton ringan = Lightweight coarse aggregate characteristic study from recycled high density polyethylene plastic bags waste and its effect to the modulus of elasticity, splitting-tensile and compressive strength of lightweight concrete

Pengarang/Penulis:

Ronny Bernard Agustinus, author

Subjek:

Nomor Panggil:

S50520

Penerbitan:

Fakultas Teknik Universitas Indonesia
