

Judul:

Analisis hubungan konsumsi glukosa, aktivitas spesifik dan pola isozim Lactate Dehydrogenase (LDH) pada hati tikus yang diinduksi hipoksia sistemik kronik = Analysis of the relationship of glucose consumption, specific activities and isozyme patterns of Lactate Dehydrogenase (LDH) in rat liver tissue during induced chronic systemic hypoxia

Pengarang/Penulis:

Agus Evendi, author

Subjek:

Oxygen Consumption ; Biological Transport --physiology

Nomor Panggil:

T32795

Penerbitan:
