

Judul:

Sintesis human milk fat substitutes (HMFS) dengan katalis lipase rhizomucor miehei diimobilisasi menggunakan metode entrapment dengan support kalsium alginat = The synthesis of human milk fat substitutes (HMFS) with rhizomucor miehei lipase catalyst which is immobilized by using entrapment method with calcium alginate as support

Pengarang/Penulis:

Wiwik Handayani, author

Subjek:

Trans fatty acids; Lipids -- Chemical synthesis; Genetically modified foods

Nomor Panggil:

T35700

Penerbitan:

Universitas Indonesia
