

Judul:

Perancangan prototipe light curing unit-light emitting diode (LCU-LED) dengan metode pulse width modulation (PWM) = Prototype design of light curing unit-light emitting diode (LCU-LED) using pulse width modulation (PWM) method

Pengarang/Penulis:

Abdul Rachman Firdaus, author

Subjek:

Pulse-duration modulation; Temperature

Nomor Panggil:

T-Pdf

Penerbitan:

Program Pascasarjana Universitas Indonesia
