

Judul:

Akurasi model 3 dimensi fused deposition modelling (FDM) terhadap CT scan pada pengukuran ketebalan dan ketinggian symphysis mandibula = Accuracy of 3 dimensional fused deposition modelling (FDM) model compared with CT scan on measurement of thickness and height of mandibular symphysis / Mohammad Adhitya Latief

Pengarang/Penulis:

Mohammad Adhitya Latief, author

Subjek:

Thickness measurement; Computed tomography

Nomor Panggil:

T-Pdf

Penerbitan:
