

Judul:

Optimisasi multi-objektif kilang hayati ko-produksi etanol, furfural, dan listrik berbasis lignoselulosa terintegrasi dengan sistem generasi kukus tenaga surya = Multi objective optimization of ethanol furfural and electricity co production in a lignocellulosic based biorefinery integrated with solar assisted steam generation system

Pengarang/Penulis:

Zulfa Hudaya, author

Subjek:

Biorefinery -- Lignocellulosic; Solar-assistedsteam (steam generation) -
- Multi-objective optimization

Nomor Panggil:

S63155

Penerbitan:
