

Judul:

Efisiensi pengolahan Lindi menggunakan anaerobic baffled reactor (ABR) dengan hydraulic retention time (HRT) 3 dan 4 hari: studi kasus: lindi TPA Cipayung = Efficiency of leachate treatment by using anaerobic baffled reactor (ABR) with hydraulic retention time (HRT) 3 and 4 days: case study leachate final disposal Cipayung

Pengarang/Penulis:

Vidya Ismayanti, author

Subjek:

Leachate; Sanitary landfills -- Leaching; Sewage -- Purification -- Sequencing batch reactor process; Hydraulics

Nomor Panggil:

S65273

Penerbitan:
