

Judul:

Pengaruh model environmental enrichment yang dikombinasi dengan latihan fisik aerobik terhadap fungsi memori spasial: kajian ekspresi synaptophysin, subunit GluR1 AMPAR, dan postsynaptic-95 = The effects of environmental enrichment model combined with aerobic physical exercise on spatial memory function study on the expression of synaptophysin ampar glur1 subunit and postsynaptic density 95

Pengarang/Penulis:

Diah Ayu Aguspa Dita, author

Subjek:

Aerobic exercises--Physiological aspects; Aerobic exercises--Study and teaching.

Nomor Panggil:

T-Pdf

Penerbitan:
