

Judul:

Korelasi kadar beta-2 mikroglobulin serum dengan ketebalan tunika intima-media arteri karotis pada pasien hemodialisis high flux dan continuous ambulatory peritoneal dialysis non-diabetik = Correlation between serum beta 2 mikroglobulin level and carotid artery intima media thickness among non diabetic high flux hemodialysis and continuous ambulatory peritoneal dialysis patients

Pengarang/Penulis:

Pujiwati, author

Subjek:

Carotid artery -- Diseases; Blood-vessels -- Diseases; Peripheral vascular diseases

Nomor Panggil:

T-Pdf

Penerbitan:

Fakultas Kedokteran Universitas Indonesia
