

Judul:

Degradasi limbah cair fenol dan logam Cr (VI) menggunakan metode contact glow discharge electrolysis dan penambahan ion Fe²⁺ = Degradation of phenol and Cr (VI) wastewater with contact glow discharge electrolysis method and additive of Fe²⁺

Pengarang/Penulis:

Raden Ridzki Aditya Kurniawan, author

Subjek:

Water quality management; Water -- Pollution; Phenol -- Environmental aspects; Chromium -- Environmental aspects

Nomor Panggil:

S67210

Penerbitan:
