

Judul:

Evaluasi akurasi program gwphreatic metode beda hingga terhadap program geostudio 2016 metode elemen hingga untuk simulasi model fisik aliran air tanah phreatic yang akuifer melalui berlapis stratified aquifer dan akuifer melayang perched aquifer = Accuration evaluation of gwphreatic program finite difference method to geostudio 2016 program finite element method to simulate physical model of phreatic groundwater flow through stratified akuifer and perched aquifer

Pengarang/Penulis:

Khasan Mustofa, author

Subjek:

Finite element method -- Computer programs; Groundwater flow

Nomor Panggil:

S-Pdf

Penerbitan:
