

Title:

Pengujian kuat tekan dan kuat tarik langsung pada beton mutu tinggi FC 41,5 MPA dan kuat geser epoxy sikadur CF 31 sebagai basis data dalam perancangan kunci geser = Experimental of compressive and direct tension test of high strength concrete FC 41,5 mpa and shear test of epoxy sikadur CF 31 as database for shear key design

Author:

Adnan Hariadi, author

Subject:

Concrete; Composite structures; Tensile tests

Call Number:

S-Pdf
