

Judul:

Karakterisasi reservoir mid main carbonate berbasis data seismik multivintage dengan metode inversi seismik dan dekomposisi spektral CWT, studi kasus lapangan migas Jawa Barat = Reservoir characterization of mid main carbonate based on multivintage seismic data using seismic inversion and spectral decomposition CWT method, case study of oil and gas field West Java / Leonardo Kurnia Beniartho

Pengarang/Penulis:

Leonardo Kurnia Beniartho, author

Subjek:

Mid Main Carbonate; Seismic Inversion; Spectral Decomposition

Nomor Panggil:

T49055

Penerbitan:
