

Judul:

Pengaruh talasemia minor terhadap pengukuran HBA1C metode high performance liquid chromatography HPCL dan afinitas boronat point of care testing poct = The effects of thalassemia minor on HBA1C results by high performance liquid chromatography hplc and boronate affinity point of care testing poct analyzers

Pengarang/Penulis:

Iqomah Diyanah, author

Subjek:

Thalassemia--Molecular aspects

Nomor Panggil:

SP-Pdf

Penerbitan:
