

***Judul:***

Investigasi pengaruh temperatur pada zona reaksi terhadap karakteristik produk asap cair pada proses pirolisis dengan liquid collecting system tipe triple tube heat exchanger = Investigation effect of temperature in reaction zone againts characteristic of liquid smoke products on pyrolysis process with triple tube heat exchanger as a liquid collecting system

***Pengarang/Penulis:***

Rachmat Rahardian, author

***Subjek:***

Pyrolysis; Biomass energy

***Nomor Panggil:***

S-Pdf

***Penerbitan:***
