

Judul:

Deteksi dan mitigasi bursty impulsive noise pada power line communication (PLC) dengan algoritma block sparse bayesian learning (BSBL) = Detection and mitigation bursty impulsive noise in power line communication (PLC) using block sparse bayesian learning (BSBL) algorithm / Prita Dewi Mariyam

Pengarang/Penulis:

Prita Dewi Mariyam, author

Subjek:

Bit error rate; Electric lines; Wireless communication systems

Nomor Panggil:

T51087

Penerbitan:
