

Judul:

Teknik kendali baru pid adaptif berbasis model invers neural network untuk pengendalian brushless-DC-motor dengan konfigurasi speed-sensorless neural network ensemble kalman filter = A novel adaptive pid controller based on the neural network invers model for brushless-DC-motor control with speed-sensorless neural network ensemble kalman filter configuration

Pengarang/Penulis:

Muhammad Rifan, author

Subjek:

Motorcycle detailing -- United States -- Pictorial works

Nomor Panggil:

D2516

Penerbitan:

Universitas Indonesia
