

Judul:

Kidney Injury Molecule-1 Penanda Kerusakan Tubulus Ginjal dan Kaitannya dengan Polimorfisme Gen Angiotensin Converting Enzyme pada Penyandang Diabetes Melitus Tipe 2 = Kidney Injury Molecule-1 (KIM-1): the Indicator of Kidney Tubules Damage and Its Relationship with Polymorphism of Angiotensin Converting Enzyme Gene in Patients with Type 2 Diabetes Mellitus

Pengarang/Penulis:

Abas Suherli, author

Subjek:

Chromosome polymorphism; Kidney tubules -- Pathophysiology; Diabetes; Isohormones

Nomor Panggil:

D-pdf

Penerbitan:

Fakultas Kedokteran Universitas Indonesia
