

Judul:

Analisis genetik dan epigenetik gen pengkode faktor nyeri Nerve Growth Factor (NGF), Transient Receptor Potential Cation Channel Subfamily Ankyrin Member 1 (TRPA1), dan Purinergic Receptor P2x Ligand-Gated Ion Channel 3 (P2RX3) pada endometriosis = Genetic and epigenetic analyses of Nerve Growth Factor (NGF), Transient Receptor Potential Cation Channel Subfamily Ankyrin Member1 (TRPA1), and Purinergic Receptor P2x Ligand-Gated Ion Channel 3 (P2RX3) as a pain protein coding in endometriosis

Pengarang/Penulis:

Ocktariyana, author

Subjek:

Endometriosis -- Physiopathology

Nomor Panggil:

D-Pdf

Penerbitan:

Fakultas Kedokteran Universitas Indonesia
