

Judul:

Pengaruh Sekretom Cancer-Associated Fibroblasts terhadap Transisi Epitel-Mesenkim dan Kepuncaan Sel Karsinoma Kolorektal melalui Jalur Pensinyalan Hepatocyte Growth Factor/c-Mesenchymal-Epithelial Transition receptor = The Effect of Cancer-Associated Fibroblasts Secretomes to the Epithelial-Mesenchymal Transition and Stemness of Colorectal Carcinoma Cell through Hepatocyte Growth Factor/c-Mesenchymal-Epithelial Transition Receptor Pathway

Pengarang/Penulis:

Noza Hilbertina, author

Subjek:

Fibrocystic Disease of Breast -- diagnosis.

Nomor Panggil:

D-Pdf

Penerbitan:

Fakultas Kedokteran Universitas Indonesia
