

Judul:

Korelasi antara anti-citrullinated protein antibodies dan petanda turnover tulang (CTX-1 AND P1NP) pasien artritis reumatoid low-disease Activity Dan Remisi Dengan Disease Modifying Anti Rheumatic Drugs Sintetik Konvensional = Correlation Between Anti-Citrullinated Protein Antibodies Level And Bone Turnover Marker (CTX-1 AND P1NP) In Patient With Rheumatoid Arthritis on Low-Disease Activity And Remission Achieved by Conventional Synthetic Disease Modifying Anti Rheumatic Drugs

Pengarang/Penulis:

Tulus Widiyanto, author

Subjek:

Autoimmunity; Arthritis, Rheumatoid

Nomor Panggil:

SP-pdf

Penerbitan:

Fakultas Kedokteran Universitas Indonesia
